Dear Harold,

In my letter to you of 10 April 1978 I advised that I would keep you informed of our progress in considering [ ] for a possible position in our Science and Technology Directorate.

I believe that this may come as no surprise to you, but I have been informed that [ ] has accepted a position with your Under Secretary for Research and Engineering. In the event that he is available in the future we certainly would give serious consideration to his application if he elects to reapply.

I appreciate your bringing [ ] to my attention, and I wish him success in his work at the Defense Department.

Yours,

/s/ Stansfield Turner

Dear Stan,

STATINTL [redacted] whose resume is attached, has written me to express interest in obtaining a challenging technical management position in government. I worked with him at the Radiation Laboratory in Berkeley and at Livermore, and consider him competent, personable, and good with people. I understand his most recent experience has been in space systems, high energy lasers, advanced surveillance sensors, and strategic weapon systems. I recommend him to you, and hope you will give him a careful look.

Sincerely,

SUBJECT: Resume of [REDACTED]

STATINTL

STATINTL

We have reviewed [REDACTED] resume, sent to you by Secretary Brown, in several offices within NFAC. Though no one knows [REDACTED] his past experience and accomplishments appear to be impressive. We do not at the present time have a senior enough job likely to be satisfactory to him, however. Under these circumstances, I recommend that his resume be passed to the DDS&T which may indeed find his experience of even greater relevance than it appears to be for us.
